

The Grafton Hotel Dublin Sustainability Policy 2026

1. Organisation ethos

At The Grafton Hotel Dublin our core values are:

SUSTAINABLE – We care about the environment and the work environment.

CREATIVE – In design and in our approach, we are open to ideas that elevate

INDEPENDENT – We are one of one, we chart our own course.

HOSPITALITY – Our welcome is warm, confident and inobtrusive.

MODERN – We believe in smart tech in the service of people.

DUBLIN – We are rooted in our place, part of the future of an ancient city

We aim to:

- Be a responsible company by having a sustainability policy in place
- Help protect our environment for future generations
- Reduce carbon emissions
- Use local produce and in season products, buy Irish & locally sourced produce
- Reduce energy consumption
- Reduce the amount of plastic and paper used in our hotel
- Become more involved in the local community
- Reduce, Re Use, recycle policy to be promoted among all team members.
- Strive for continuous improvement through setting objectives & targets & KPI's.
- Ensure Green team in place & regular meetings are held.
- Communicate & promote environmental awareness among all our staff.
- Become more involved in the local community.
- Comply with all applicable environmental Legislation.

2. Our focus

- At The Grafton Hotel Dublin, we believe that sustainable tourism is tourism that takes full account of its current and future economic, social, and environmental impacts while addressing the needs of visitors, the industry, the environment, and host communities (UNWTO, n.d.). We therefore aim to reduce our negative effects and increase our positive impacts.

3. Continuous improvement

- We aren't perfect yet, but we are committed to continuously improving our efforts. At The Grafton Hotel, we are on a journey & we will endeavour to achieve our goals & targets & continue to evolve in the future.

4. Measuring and reducing negative impacts

4a. Energy Consumption

- We commit to measuring our electricity consumption every month and do the following to reduce consumption by 10%.
- Switch off appliances when not in use
- Educate team members on the conservation of energy
- Purchase new appliances with highest efficiency rating when old appliances are being replaced.
- Use smart building controls through BMS lowering electricity and gas consumption.
- Ensure that PIR sensors are in place in all suitable locations.

9. Responsible Sustainability Marketing

We know we can't always get things right the first time. We therefore commit to honestly communicating where we are on our journey and our improvements.

Our stakeholders, such as our customers, team members, community, and suppliers are important to us, we aim to welcome their views by ensuring that we have an open-door policy for communication where everyone has the opportunity to raise their concerns, share their ideas on an ongoing basis.

We commit to:

- **Educate team members on green washing**
- **Implement marketing guidelines**
- **Ensure that the marketing message is honest & accurate**

Timeframe: 12 months

10. Social Responsibility

We support our local community by committing to getting involved in local community events.

ENERGY POLICY STATEMENT 2025

The Grafton Hotel is fully committed to the efficient usage of energy at its facilities, in line with our 3 Pillar Sustainability Model. We believe in preserving natural resources, reducing atmospheric emissions, and helping to mitigate the effects of climate change. This will deliver a healthier and more sustainable environment, and associated cost efficiencies, for the benefit of our people, guests, and the communities in which we operate.

The Grafton Hotel will use this policy as a framework for setting and reviewing energy objectives and targets in order to improve energy performance and reduce the relevant energy sources used. To achieve this, Management will ensure the availability of the necessary information and resources. Management will support the purchase of energy-efficient products and services, and design for energy performance improvement.

We will ensure compliance with all applicable legal requirements which relate to energy aspects, and other requirements to which the organisation subscribes related to energy performance, including energy efficiency and the use and consumption of energy. The company will also encourage the adaption of its operations and facilities to ensure compliance with future legal changes and will establish common standards for the management of energy efficiency in all areas of the business in which it operates.

In order to promote greater awareness among all of its stakeholders, The Grafton Hotel will provide them with reliable and transparent information regarding its energy consumption, its corresponding greenhouse gas emissions and the improvement actions undertaken.
